EV Group Academy Center @OpenZone

EV Group Academy Center

- Opened in **2023**, the **Group Academy Center** plays an important role in the network of 4 EV's application laboratories.
- Located in **Bresso**, near the city of Milan, the new **230 sq Labs** – situated in the **OpenZone Campus** that is the embodiment of a place for the exchange of knowledge about research and enterprise - expands EV's technical capabilities to now include *paints and coatings*, and *beauty & personal care*, in addition to its existing technical *food* capabilities.
- Here, our technical team utilizes its extensive application know-how in the areas of **Beauty & Personal Care** and **Paint & Coatings**.
- The laboratory offers a reliable platform to support and accelerate the business ambitions of our **best-in class suppliers** and **customers** in the **EMEA Region**.

EV Group Academy Center

- Application Lab features:
 - Development of new marketing concept prototypes
 - Compatibility study of specific ingredients
 - Customer support: Formulation troubleshooting
 - Customer Lab sessions for new functional/sensorial ingredients
 - Co-development projects with customers and suppliers.
