

# Mar'vina SILKYFLAKE®

## Ultra-fine thin plate

Pure and luminous borosilicate powder for more safety and purity with high aspect ratio, good soft-focus, glow and transparency properties.

## Table of grades

SILKYFLAKE® can obtain good transparency and lustrous shine for cosmetic products.

Product Code	Average thickness (µm)	Average particle (µm)	Surface treatment
FTD008FY	0.4	8	-
FTD008FY-F30			Lauroyl Lysine
FTD008FY-F40			Sodium Myristoyl Glutamate
FTD008FY-F80			Amorphous silicon dioxide
FTD010FY-F01	0.4	10	-
FTD010FY-F11			Silicone
FTD025FY-F02	1.3	25	-
FTD025FY-F12			Silicone
FT1018FY			18
FT1040FY	1.3	40	-
FT1080FY			80

## Production

NSG, expert of the glass flake production, has controlled particle size, thickness and smoothness for cosmetics. Their technology allows high quality and very low level of impurities.
