

SHARON
PERSONAL CARE

Actives

Connecting for innovation

Sharon Personal Care

is a global supplier of ingredient solutions for a broad range of personal care products – including advanced preservative systems, formulation building blocks, functional ingredients and Bio-actives.

Deep Scientific Knowledge

Our R&D team of specialists are always thinking ahead, searching for the most effective solutions, surprising the cosmetics industry with exciting product lines, based on our deep scientific knowledge and our ability to foresee future trends and industry needs.

The research behind

A deep knowledge of the epidermis, its physiology and all related neuro-cosmetic implications are the starting point for Sharon Personal Care's R&D to research and design new active ingredients. We are bringing the best ideas from nature, without compromising on efficacy and safety.

Cell Carrier Technology

A new high-tech know-how for the development of targeted delivery systems to optimise the efficacy of active ingredients. A deep understanding of skin physiology and of the biochemistry behind actives

Proven efficacy

We place great emphasis on the testing phase, which is carried out by accredited external laboratories. The choice of tests used to define the efficacy of the active ingredients is a crucial phase that involves technical marketing and research, with the aim of identifying those claims that are most sought after by the current cosmetics market.

Index:

PANTROFINA6

High performance actives with clinically proven efficacy

SHARODERM.....9

Bio-technological ingredients for a dermatological approach

SHAROHYAL.....13

Deep skin activators ideal to improve the bioavailability and cosmetic activity

OLEOSOME.....18

Water-based process technology able to get oleosomes from oilseed

MORIPURE.....21

Sericin re-booting through a sustainability process

PANTROFINA®

Taking the best of nature, enhancing it and using it to create beauty, Pantrofina is our range of high performance actives with clinically proven efficacy.

PANTROFINA High-Performance active ingredients

Code & Trade Name	INCI	Characteristics	Application
BC500548 PANTROFINA ADIMIN RG 	Glycerin, Hydrolyzed Glycosaminoglycans, Rheum Palmatum Root Extract <i>Aspect: water soluble liquid</i>	Based on Cell Carrier Technology, Pantrofina Adimin RG combines rhubarb extract with a delivery system selected to reach the deepest layers of the epidermis, inhibiting lipogenesis and stimulating lipolysis by breaking down stored triglycerides: <ul style="list-style-type: none"> • Slimming 	Body care Tested: 2% In vitro tested In vivo tested
BC600624 PANTROFINA EYELIGHT BH 	Adansonia digitata seed oil, Helianthus Annuus (Sunflower) Seed Oil, Helichrysum Angustifolium flower extract, Brassica Oleracea Italica (Broccoli) sprout extract <i>Aspect: oil soluble liquid</i>	A botanical complex, rich in Vitamines and antioxidants able to fight the causes of puffiness and dark circles, working on the activation of blood-clotting proteins Function: <ul style="list-style-type: none"> • Anti dark circles • Anti eye bags 	Skin care Eye care Tested: 2% In vivo tested
BC600607 PANTROFINA GANTOTHER 	Glycerin, Water, Ganoderma Lucidum (Mushroom) Mycelium Ferment Filtrate <i>Aspect: water soluble liquid</i>	Phytocomplex based on the “the mushroom of immortality”, containing a high amount of ganoderic acid. It works on scalp hair cells reducing hair loss and stimulating the cellular renewing. <ul style="list-style-type: none"> • Long lasting anagen phase • Healthy hair • Hair strength improvement • Hair fall prevention. 	Scalp care Hair care Tested: 2% In vitro tested In vivo tested China approved version available
M1680 PANTROFINA HAIR THERAPY 	Tussilago Farfara Extract, Achillea Millefolium Extract, Cinchona Succirubra Extract, Sodium Benzoate, Potassium Sorbate <i>Aspect: water soluble liquid</i>	Complex of water-soluble plant extracts whose combined action helps to reduce hair loss. For the health and wellbeing of the scalp. <ul style="list-style-type: none"> • Anti-Hair Loss • Anti-itching 	Scalp care Hair care In vitro tested In vivo tested Tested: 10%
BC600427 PANTROFINA HYDRAFEEL 3 	Polyglyceryl-3 PCA <i>Aspect: water soluble viscous fluid</i>	Texturizing and protective active ingredient for hair care, skin care and make up application. Thanks to its film-forming properties it shows several benefits: <ul style="list-style-type: none"> • Counteraction of TEWL • Improvement long lasting hair color (in hair dye treatment) • Skin feel improvement 	Skin care Sun care Hair care Make up In vivo tested Tested: 0.2%/1% China approved version available

PANTROFINA High-Performance active ingredients

Code & Trade Name	INCI	Characteristics	Application
BC500554 PANTROFINA J-GRAVITY 	<i>Lavandula Hybrida Oil, Camellia Sinensis Extract</i> <i>Aspect: liposoluble liquid</i>	A combination of bancha tea flavonoids and the Cell-Carrier Technology of lavender EO to combat the effects of gravity: <ul style="list-style-type: none"> • Anti sagging • Face-contour redefying • Anti wrinkle 	Skin care In vivo tested Tested: 1%
P0704 PANTROFINA PERFECTION 	<i>Ammonium Glycyr-rhizinate, Mannitol, Arginine, Niacinamide, Calcium Pantothenate, Faex Extract, Allantoin, Threonine, Biotin</i> <i>Aspect: water soluble powder</i>	Complex of essential micro-nutrients with a bio-modulating effect that stimulates metabolic activity of fibroblasts and promotes skin elasticity. <ul style="list-style-type: none"> • Increasing skin elasticity • Reducing hair loss • Respecting skin microbiome • Boosting cellular activity 	Scalp care Hair care Skin care In vitro tested In vivo tested Tested: 1,25%
P0703 PANTROFINA REMEDY 	<i>Propylene Glycol, Undecylenic Acid, Arginine, Salicylic Acid, Aqua</i> <i>Aspect: clear water-soluble liquid</i>	Active complex with a proven anti-dandruff and anti-itch activity <ul style="list-style-type: none"> • Anti dandruff • Anti itching • Preservative booster 	Scalp care Hair care Skin care In vitro tested In vivo tested Tested: 1%
P0730 PANTROFINA RESHAPE 	<i>Garcinia Cambogia Fruit Extract, Arginine, Escin, Glutamine, Aqua</i> <i>Aspect: hydro soluble liquid</i>	Caffeine-free slimming and anti-cellulite botanical active ingredient based on Garcinia Cambogia fruit extract, escin and amino acid complex <ul style="list-style-type: none"> • Slimming • Anticellulite • Firming 	Body care In vitro tested In vivo tested Tested 4 %
P0712MB PANTROFINA SKIN 360 MB 	<i>Diglycerin, Pinus Pinaster Extract</i> <i>Aspect: hydro soluble liquid</i>	Botanical Active ingredient obtained from the bark of Maritime Pine. Effective antipollution agent, it is a potent soothing active and radical scavenger too, specific for photoageing prevention. <ul style="list-style-type: none"> • Anti-pollution • Soothing • Antioxidant 	Skin care In vitro tested In vivo tested Tested: 1%
E0605 PANTROFINA SKIN DNA 	<i>Lecithin, Rutin</i> <i>Aspect: hydro soluble powder</i>	A complex of Rutin, a derivative saponin extracted from the Ruta graveolens L., and a skin identical phospholipid that enhances the delivery through a carrier effect <ul style="list-style-type: none"> • Anti-ageing • Anti-oxidant • DNA protection 	Skin care In vitro tested In vivo tested Tested: 2%

SHARODERM

For a safe and effective dermaceutical offering, our Sharoderm range contains bio-technological ingredients suitable for all cosmetic applications.

SHARODERM – Bio-tech Actives Line

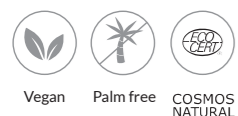

Code & Trade Name

INCI

Characteristics

Application

BC600537
SHARODERM
AFA GS

Glycerin, Aqua, Sucrose, Aphanizomenon Flos Aquae (AFA) powder

Aspect:
Hydro soluble liquid

Rich in vitamins, essential aminoacids, Omega-3 and fatty acids, AFA-GS is able to bond a high amount of water fostering a deep skin hydration.

Skin care
Body care
Use level:
1% - 3%
China approved version available

P0701
SHARODERM
BETA

Stearyl Glycyrrhizinate

Aspect:
Liposoluble powder

Liposoluble cosmetic active ingredient with efficient skin soothing and anti-reddening properties.

Skin care
Scalp care
Use level
0,3-3%

BC600304
SHARODERM
CARNOXYN

Aqua, Carnitine fumarate, Sodium pyruvate, Succinic acid, Citric acid

Aspect:
Hydro soluble liquid

Bio-technological active, able to stimulate skin cells metabolism, improving tonification of skin.

Skin care
Body care
Use level:
1% - 5%

R0076MB
SHARODERM
DGL MB

Diglycerin, Glucose
Aspect: hydro soluble liquid

Humectant with moisturizing and softening properties.

Skin care
Scalp care
Hair care
Use level:
2 -4 %

R0081MB
SHARODERM DN
MB

Diglycerin
Aspect: Hydro soluble liquid

Ether from glycerol with moisturizing and co-solvent properties.

Skin care
Scalp care
Hair care
Use level:
3%

SHARODERM – Bio-tech Actives Line

Code & Trade Name

INCI

Characteristics

Application

E0606
SHARODERM
EDEMINE

Escin, Lecithin

Aspect:
liposoluble powder

A phospholipidic complex of Escin derived from aesculus hippocastanum, being effective against cellulite and oedema. It improves the trans-epidermal permeability of Escin and its skin tolerability as well

Body care
Skin care
In vitro tested
In vivo tested
Use level:
0,5%

H0151
SHARODERM
HYDRO-K

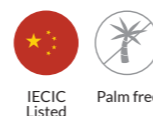

Galactosyl-fructose, Lecithin

Aspect: hydro soluble powder

A phospholipidic complex based on Galactosyl-Fructose, a sugar that delivers superior moisturization and skin elasticity.

Skin care
In vivo tested
Use level:
2%

P0710 NC
SHARODERM
HVP

Aqua, Hydrolyzed Wheat Protein, Benzyl Alcohol, Sodium Benzoate, Potassium Benzoate

Aspect: hydro soluble liquid

Wheat proteins' hydro-soluble derivative with moisturizing, softening and substantive properties.

Skin care
Hair care
Use level :
1-3% skin care
5-10% haircare

L0220/NC
SHARODERM
LACTIL GLUTAMMATO

Glycerin, Sorbitol, Sodium PCA, Sodium Lactate, Aqua, Caprylyl Glycol

Aspect: hydro soluble liquid

A balanced moisturizing complex, with high water-binding properties. It delivers intense moisturization after 5 minutes from application, assessed by in-vivo studies.

Skin care
Hair care
In vivo tested
In vitro tested
Use level:
5%

BC600278
SHARODERM
NICOMENT

Menthyl nicotinate, Menthol

Aspect: liposoluble powder

Obtained from natural sources, it combines stimulating properties of nicotinic acid and refreshing natural menthol, offering wellness treatment by a simultaneous "hot-cold" effect.

Body care
In vivo tested
Use level:
0,5% - 2%
China approved version available

SHARODERM – Bio-tech Actives Line

Code & Trade Name

Characteristics

Application

P0700 NC
SHARODERM
NMF

Aqua, Sodium Pca, Mel / Honey, Urea, Glucose, Fructose, Pentylene Glycol, Citric Acid, Glycine, Acetyl Glucosamine, Glucuronolactone, Lisine Hydrochloride, Hydrolyzed Collagen, Propylene Glycol

Balanced moisturizing complex that mimics the natural moisturizing factor (NMF).

Skin care
Use level:
1% - 5%

Palm free

Aspect: hydro soluble liquid

BC600330
SHARODERM
TARCHOPLUS

Dicaprylyl ether, Tarchonantus camphoratus oil, 4-Terpineol, Helichrysum angustifolium flower Extract

A special mixture of botanical liposoluble extracts with anti-edema and anti-inflammatory action, improving sport performance.

Body care
In vitro tested
Use level:
2% - 4%

Palm free

Vegan

Aspect: liposoluble oil

BC600293
SHARODERM
TARCONOL

Dicaprylyl ether, Tarchonantus Camphoratus oil, 4-Terpineol, Melia Azadiracta seed oil, Pelargonium Graveolens flower oil

The power of essential oils, against mosquitoes and other insects. The special botanical mixtures has also soothing effect on human skin.

Body care
Use level:
2% - 4%

Palm free

Vegan

Aspect: liposoluble oil

T2266
SHARODERM
TRICO DEFENCE

Aqua, Hydrolyzed Wheat Protein, Sodium Chondroitin Sulfate, Glycosaminoglycans, Sodium Chloride, Triticum Vulgare Germ Extract, Dna, Triticum Vulgare Germ Protein, Benzoic Acid, Dehydroacetic Acid, Sodium Hyaluronate, Ethylhexylglycerin

DNA-Mucopolisaccharide active complex for hair-beauty routine, scalp revitalizer, anti hair loss.

Hair care
Scalp care
Use level:
1- 5 %

IECIC Listed

Aspect: hydro soluble liquid

RV1302C
SHARODERM
WHITE GT

Methyl Dihydroxybenzoate, Hydrolyzed Glycosaminoglycans

Bio-technological complex, derived from gentian, with skin whitening activity by inhibition of melanogenesis and low cytotoxicity.

Skin care
In vitro tested
In vivo tested
Use level:
0,5 - 2%

IECIC Listed

Palm free

Aspect: Off white powder

SHAROHYAL

Deep skin activators. A range of actives based on the combination of vegetal origin hydrolysed glycosaminoglycans (GAG) and active molecules to improve the bioavailability and cosmetic activity.

SHAROHYAL – HYALURONIC LINE

SHAROHYAL – HYALURONIC LINE

Code & Trade Name

INCI

Characteristics

Application

BC600262
SHAROHYAL
GLYCACID ECO

Glycerin, Hydrolyzed glycosaminoglycans
Aspect: Hydro soluble liquid

Precursor of mucopolysaccharides with a high concentration of hyaluronic acid monomer. Their small molecular size enhances skin penetration, improving efficacy of active ingredients.

- Hydrating

Hair care
Skin care
Body care
In vitro tested

INCI

Characteristics

Application

BC600277
SHAROHYAL
OLIGO

Aqua, Glycerin, Tremella fuciformis (Mushroom) Extract, Lentinus edodes Extract, Copper PCA, Zinc PCA
Aspect: Hydro soluble liquid

Oligoelements in the form of salts of Pyrrolidone carboxylic acid (PCA) complexed with hydrolysed glycosaminoglycans (HGAG), for a better intraepidermal absorption.

- Sebum regulator
- Skin and scalp care

Skin care
Scalp care
In vivo tested
Use level
0,5% - 4%

BC600294
SHAROHYAL
LW

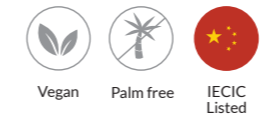

Glycerin, Hydrolyzed glycosaminoglycans, Hyaluronic Acid
Aspect: Hydro soluble liquid

Precursor of mucopolysaccharides associated with a high percentage of low molecular weight Hyaluronic Acid promoting skin penetration

- Hydrating
- Anti-wrinkle
- Elasticing

Skin care
In vitro tested
In vivo tested
Use level
0,5% - 5%

BC600568
SHAROHYAL
MOIST

Water, Sodium Hyaluronate Crosspolymer
Aspect: viscous hydro soluble liquid

Cross-linked sodium hyaluronate can bind large amounts of water and release it gradually, providing constant and prolonged hydration. The result is a plumping and anti-wrinkle effect that improves skin tone and elasticity.

- Water proof effect
- Matifying
- Skin brightness
- Anti-pollution

Skin care
Make up
In vivo tested
Use level
0,5% - 1,5%

BC600536
SHAROHYAL
SNAIL VEG

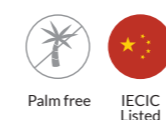

Aqua, Glycoprotein, Glycerin, Sodium Hyaluronate, Hydrolyzed Glycosaminoglycans, Copper Gluconate, Sodium PCA
Aspect: Hydro soluble liquid

Mucopolysaccharides's complex containing the same range of hyaluronic acids' molecular weight found into snail slime, showing same healing properties

- Anti-inflammatory
- Anti-stretch mark

Skin care
Body care
In vitro tested
In vivo tested
Use level
0,6% - 3%

BC500032
SHAROHYAL
MOIST PHA

Water, Mandelic Acid, Gluconolactone, Lactobionic Acid, Sodium Hyaluronate Crosspolymer
Aspect: viscous hydro soluble liquid

Combination of cross-linked sodium hyaluronate and AHA, PHA able to improve the surface skin renewal:

- Skin lightening
- Skin brightening
- Anti-spots

Skin care
In vivo tested
Use level
5% - 10%

BC601016
SHAROHYAL
XANTINE

Glycerin, Aqua, Hydrolyzed Glycosaminoglycans, Caffein, Theobromin
Aspect: Hydro soluble liquid

Water soluble compounds based on xanthines (caffeine, theobromine) and hydrolysed glycosaminoglycans (HGAG), which improve the solubility of xanthines and increase their efficacy.

For the cosmetic treatment of localised adiposity.

- Slimming

Body care
In vivo tested
Use level
0,5% - 5%
China approved version available

BC600408
SHAROHYAL
MARINE

Aqua, Glycerin, Macrocyctys Pyryfera extract, Hyaluronic Acid
Aspect: Hydro soluble liquid

A synergistic combination of Macrocyctys Pyrifera algae polysaccharides and low molecular weight hyaluronic acid. It acts on the underlying layers (epidermis and dermis) to improve firmness and elasticity with a lifting effect.

- Anti-wrinkle

Skin care
In vivo tested
Use level:
1% - 5%

SHAROHYAL – HYALURONIC LINE

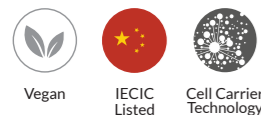

Code & Trade Name

INCI

Characteristics

Application

BC600572
**SHAROHYAL
MATRIX**

Water, Sodium Hyaluronate Crosspolymer, Propanediol, Glycerin, Hydrolyzed Glycosaminoglycans, Sodium Hyaluronate, Hydrolyzed Hyaluronic Acid, Hyaluronic Acid.

Aspect: viscous hydro soluble liquid

Special combination of 5 different molecular weight hyaluronic acids, anti-wrinkle and moisturising complex

- Anti-wrinkle
- Moisturizing

Skin care
In vivo tested
In vitro tested
Use level:
0,5% - 1,5%

BC600364
**SHAROHYAL
RICE**

Aqua, Glycerin, Hydrolyzed Glycosaminoglycans, Hydrolyzed Rice Protein, Hyaluronic Acid

Aspect: hydro soluble liquid

Natural antistatic conditioner, significantly reduces the electrostatic charge on the hair, creates a monomolecular layer of hyaluronic acid which removes the positive charges.

- Breaking strength
- Glossy Hair
- Combing improvement

Hair care
In vivo tested
Use level:
0,5% - 5%

SHAROHYAL – HYALURONIC LINE

Code & Trade Name

INCI

Characteristics

Application

BC600268
**SHAROHYAL
BUDDLEJA CELL**

Glycerin, Aqua, Buddleja Davidii meristem cell culture extract, Hydrolyzed Glycosaminoglycans

Aspect: hydro soluble liquid

It comes from meristematic cells of Buddleja Davidii complexed with Hydrolyzed Glycosaminoglycans (HGAG).

- Tirosinase inhibition
- Skin lightener
- Anti inflammatory

Skin care
Use level:
1%- 5%

BC600382
**SHAROHYAL
CENTELLA CELL**

Glycerin, Aqua, Centella Asiatica meristem cell culture extract, Hydrolyzed Glycosaminoglycans

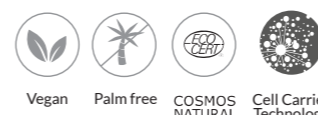

Aspect: hydro soluble liquid

A complex of substances extracted from the cells present in the buds of Centella Asiatica complexed with Hydrolyzed Glycosaminoglycans

- Antioxidant
- Inflammation controller
- Microcirculation improvement

Skin care
Use level:
1%- 5%

BC600334
**SHAROHYAL
ECHINACEA CELL**

Glycerin, Aqua, Echinacea Angustifolia meristem cell culture extract, Hydrolyzed Glycosaminoglycans

Aspect: hydro soluble liquid

It comes from stems of Echinacea Angustifolia complexed with Hydrolyzed GAG. It contains phenylpropanoids, phytosterols, aminoacids, polysaccharides with energizing, anti-ageing, and anti-inflammatory action

- Enhancer of fibroblast proliferation
- Metabolic energizer

Skin care
Use level:
1%- 5%

BC600269
**SHAROHYAL
LENTOPIDIUM
CELL**

Glycerin, Aqua, Leontopodium Alpinum meristem cell culture extract, Hydrolyzed Glycosaminoglycans

Aspect: hydro soluble liquid

It comes from stems of Leontopodium Alpinum (Edelweiss). It shows a strong anti ageing activity due to its anti-collagenase properties, antioxidant and radical scavenger action.

- Enhancer of fibroblast proliferation
- Anti-inflammation

Skin care
In vitro tested
Use level:
1%- 5%

Sharohyal Cell is a special range of active ingredients derived from a combination of hyaluronic acid precursors with plant bud cells. A special stem cell culture technology is used to grow them in vitro. Each plant secretes a different substance from the tip of the bud that is highly functional and provides protection against external aggression.

OLEOSOME

A novel water-based process technology for the separation of intact oleosomes from oilseeds for whole-seed utilisation. An approach which reflects our sustainability and value add culture.

OLEOSOME TECHNOLOGY- delivery system

Code & Trade Name	INCI	Characteristics	Application
BT001 CAPSOL™  Organic option available	<i>Carthamus Tinctorius (Safflower) Oleosomes, Water</i> <i>Aspect: Hydro soluble liquid</i>	CapSol™ is a breakthrough in sun care product formulation technology. It delivers superior product aesthetics and up to 80% reduction in organic actives required to achieve desired SPF while exhibiting environmental safety, ingredient sustainability, and formulation cost reduction. CapSol™ is recommended for use in daily wear SPF moisturizers, beachwear sunscreens, daily wear SPF colour cosmetics, and anti-aging skincare applications. <ul style="list-style-type: none"> • SPF booster • Emulsifier properties 	Sun care Skin care In vivo tested Use level: 1% - 10% Emulsification ratio 1:3
