A GUIDE TO MAKE A CHOICE

Emulsifier technology
for cosmetic textures

Emulpharma Chroma

Inci: *Lauryl Alcohol, Di-C12-15 Pareth-4 Phosphate, Myristyl Alcohol, Ceteth-2*

High-performance emulsifier also at critical pH value and in presence of challenging ingredients. A valid choice for professional haircare and skincare textures.

Pro Beauty

High Tech

High Performances

Emulpharma HP

Inci: *Glyceryl Stearate, Cetearyl Alcohol, Stearic Acid, Sodium Lauroyl Glutamate*

One ingredient for many different applications. Natural, reliable and versatile emulsifier to create a wide range of products, offering different sensorial profiles. Must have!

COSMOS APPROVED

Natural

Emulpharma PG20

Inci: *Polyglyceryl-2- Diisostearate*

Natural W/O emulsifier able to stabilize a high amount of water. Waterfall effect on the skin.

COSMOS APPROVED

Natural

Cold Processable

Emulpharma Mimesis

Inci: *Polyglycerol-3 Cocoate, Glycerin, Lecithin, Hydrogenated Lecithin, Aqua*

A new green emulsifier, based on a proprietary combination of lecithin and polyglycerols, able to create skin-like structures becoming a real carrier for active ingredients.

Cell Carrier Technology

Product Name	INCI	Type	Form	HLB	Natural Index Origin	Icons	% of Use	Why we love it	
EMULPHARMA HP	Glyceryl Stearate, Cetearyl Alcohol, Stearic Acid, Sodium Lauroyl Glutamate	O/W		9,0-9,5	NOI 0,989		2%-8%	Very pleasant skin feel	
EMULPHARMA K10 RSPO MB	Cetearyl glucoside, Sorbitan Olivatate, Cetearyl Alcohol	O/W		7,0-8,0	NOI 1		3%-6%	High performance in stability over time	
EMULPHARMA K20	Cetearyl alcohol, Sorbitan Olivatate, C10-18 Triglycerides, Cetearyl Glucoside, Disodium Cetearyl Sulfosuccinate	O/W		7.0-8.0	NOI 0,968		3%-6%	High versatility to create both low and high viscosity emulsion	Self-emulsifier
EMULPHARMA PG36	Polyglyceryl-3 Distearate, Polyglyceryl-6 Tristearate, Sorbitan Oleate, Palmitic Acid, Stearic Acid	O/W		6.0-7.0	NOI 1		3%-8%	No limits: from sprayable to solid emulsion: a must have	
EMULPHARMA K9	Sorbitan Olivatate	W/O		4.0-4.5	NI 0 - NOI 1		3%-6%	Can incorporate high % of water, for fresh textures	
EMULPHARMA WW	Olive Oil PEG 7 Esters, Ethylhexyl Stearate, Polyglyceryl 3 Polyricinoleate, Sorbitan Oleate	O/W		7.0 - 8.0	NOI 0,828		0.5%-10%	a smart cold emulsifier: ready and easy-to-use solution	
EMULPHARMA WW GREEN	Polyglyceryl-4 Caprate, Polyglyceryl-3-Polyricinoleate, Sorbitan Oleate, Water	O/W		8.5-9.5	NOI 1		0.5%-30%	A smart cold and GREEN emulsifier: ready and easy-to-use solution	
EMULPHARMA COREOSOME MB	Cetearyl Alcohol, Glyceryl Stearate, Sorbitan Stearate, Cetearyl Glucoside	O/W		9.0-9.5	NOI 1		5%-8%	Natural and stable emulsion with excellent skin feel	
EMULPHARMA ECO10	Polyglyceryl-10 Laurate	O/W	viscous 	16.0-17.0	NOI 1		2%-10%	To create microemulsion and stabilize foamy texture	Suitable for microemulsion
EMULPHARMA ECOTECH	Polyglyceryl-3 Cocoate	O/W		8.0-8.5	NOI 1		1%-5% (1) 5%-15% (2)	To create microemulsion and rinse off products with a blooming effect	Suitable for microemulsion
EMULPHARMA PG20	Polyglyceryl-2- Diisostearate	W/O		3.6-4.2	NOI 1		1%-4%	For a waterfall effect. Suitable to create microemulsion.	Suitable for microemulsion
EMULPHARMA CHROMA	Lauryl Alcohol, Di-C12-15 Pareth-4 Phosphate, Myristyl Alcohol, Ceteth-2	O/W		9.0-9.2	NOI 0,66		2%-8%	An hero emulsifier to incorporate critical ingredients. For professional haircare textures	
EMULPHARMA MIMESIS	Polyglycerol-3 Cocoate, Glycerin, Lecithin, Hydrogenated Lecithin, Aqua	O/W	viscous 	8.5-9.5	NOI 1		3%-5%	Not just an emulsifier, a beauty driver	

 flakes  liquid

(1) as emulsifier in cream and lotion
(2) as blooming promoter in bath oil
