

ARTEMILINE®-F

FROM ASIAN MEDICINE TO HAIR GROWTH AND PROTECTION

In Asia, Mugwort is used mainly as a medicinal herb for its **antibacterial, antifungal, detoxifying and soothing properties**.

Thanks to a patented extraction/fermentation process, we have been able to obtain an extract capable of **modifying the hair follicle microenvironment to stimulate hair growth**.

ARTEMILINE®-F limits hair loss and significantly improves the hair density.

INCI:

Artemisia capillaris extract
lactobacillus ferment
lactobacillus ferment lysate

Dose of use: 3%

Aspect:

Transparent brown liquid

ARTEMILINE®-F is raw material verified by ECOCERT Greenlife, conform to the COSMOS Standard.
